

# 26" Double Hydraulic Paper Cutter

SC-FH6810L

- Mute Technology
- Infrared Protection
- Intelligent Control
- 10.2" Touch Screen

Mute Dual Hydraulic System

Oblique Knife Cutting

Double Guide Rolls for Paper Pushing

Frequency Conversion Technology

## Specifications

Model	SC-FH6810L
Cutting Size	30-680 mm
Cutting Thickness	100 mm
Cutting Precision	±0.2 mm
Clamping Method	Hydraulic + Mechanical Pedal
Display	10.2" Touch Screen
Power	220V 50Hz, 2.5kW
Machine Weight	About 530kg
Machine Dimensions	1090x1410x1500 mm

## Features

### Heavy Duty Integral Casting Frame Design

Enhanced Design, Stable Machine, Suitable for large Volume Cutting

### Two Hand Cutting Delay Control Design

Delay Design of Cutting Button, Safe Operation

### Thickened Aviation Aluminum Plate With Floating Balls

Easy to sort Paper

### Integral Casting Tool Holder Without Chute Design

No Slipway Wear and Longer Service Life

### Dimension Error Compensation Function

The program corrects the size error and is easy to adjust

### Infrared Photoelectric Safety Protection

Rear shield safety protection, in line with CE Standards
